Re: Discontinuation of Nucleic Card™ Collection Device

Dear Valued Customer:

Please be informed that we are discontinuing the manufacture and sale of the **Nucleic Card Collection Device (Version 1)** effective March 1st 2016. This letter serves as advance notice that after this date, we will have limited stock of these products, which will be sold until it is depleted.

Part Number	Products to be discontinued
4473980	NUCLEIC-CARD™ Collection Device (Version 1)

We are pleased to announce the redesigned **Nucleic Card Collection Device (version 2.0)** for collecting, processing and archiving buccal samples for forensic database and paternity applications.

Part Number	Replacement Product
A32607	NUCLEIC-CARD™ Collection Device (Version 2)

Thermo Fisher Scientific is continuously introducing improved processes and products to help better meet the needs of our customers. This decision is part of an effort to provide better manufacturing effectiveness for the overall improvement of our Human Identification products.

Our Human Identification Sales and FAS teams will work directly with you to complete the transition to the new and improved replacement product in order to meet your specific laboratory application needs. If you have questions or concerns or would like further information, please contact your local Human Identification Support or Sales Representative.

Sincerely yours,

Human Identification Team
