RE: Brand changes for POROS™ and CaptureSelect™ products

Dear Valued Customer,

Customers always come first at Thermo Fisher Scientific. As the world leader in serving science, we continually evolve to address customer feedback and make it easier to do business with us. To that end, we are simplifying our brand architecture to provide greater clarity to our customers. This includes transitioning the brand name and logo for CaptureSelect™ and POROS™ products to Thermo Scientific™ while retiring the Applied Biosystems™ brand name.

Rest assured that this brand change will not impact the form, fit or function of our POROS and CaptureSelect products or how you conduct business with us.

However, you may notice some updates to our branding:

- Recently we began to update the logos on our marketing material and labels on some CaptureSelect products to Thermo Scientific™; there are no changes to our products
- By January 2017 our POROS and CaptureSelect product packaging, labels, and supporting documentation will switch to Thermo Scientific
- This will not impact the ordering process or SKU assignment; there is no change to how you do business with us as your vendor

For your convenience we have created a web page with the full details and real-time updates of the POROS and CaptureSelect brand changes. This website will give you a list of the changes, example labels, as well as a FAQ section with the goal of answering all of your questions regarding this brand transition.

Please visit www.thermofisher.com/purificationbrandchange frequently for the most current information.

We want to assure you that it is our top priority to make this a smooth and seamless transition. You have been, and remain, a valued and important customer. We greatly appreciate your business and look forward to continuing to serve you with an even more compelling offering of products, technologies and services.

For additional information please visit: www.thermofisher.com/purificationbrandchange or contact us at bp@thermofisher.com.

Seamlessly improving your customer experience remains our top priority. While we streamline our brand strategy, you can expect the same high-quality products that are developed, manufactured and supported by our team who is focused on your success. You can also continue to count on our commitment to innovation and our focus on providing the best service and support for all of our customers.

As your Bioproduction partner of choice, we thank you for your continued business.

Sincerely,

A handwritten signature in black ink that reads "Paul Lynch". The signature is fluid and cursive, with the first name "Paul" and last name "Lynch" clearly distinguishable.

Below is a summary of changes, and what stays the same, as a result of our brand transition.

What's not changing

This brand transition does not change:

- Our products
- Our catalog numbers
- Our manufacturing
- Our formulations
- Our legal entities
- Our online product offerings
- Our website functionality
- Your website login
- Your order process
- Your purchase orders
- Your invoice
- Your pricing
- Your packing slip
- Your shipping or delivery times

There is no change to how you do business with us as your vendor so you can be confident that we will continue serving your life science needs.

Where you will see new branding

You will begin to see the Thermo Scientific logo on:

- Product packaging
- Shipping boxes
- Documentation and literature
- Certificates of Analysis
- Material Safety Data Sheets
- Marketing & advertising materials

Same great products with a fresh new look.
