

# CD208 (DC-LAMP) Monoclonal Antibody (31B), APC, eBioscience™

Product Details	
Size	25 Tests
Species Reactivity	Human
Published Species	Human
Host/Isotype	Mouse / IgG2a, kappa
Recommended Isotype Control	Mouse IgG2a kappa Isotype Control (eBM2a), APC, eBioscience™
Class	Monoclonal
Type	Antibody
Clone	31B
Conjugate	APC
Excitation/Emission Max	651/660 nm
Form	Liquid
Concentration	5 µL/Test
Purification	Affinity chromatography
Storage buffer	PBS, pH 7.2, with 0.2% BSA
Contains	0.09% sodium azide
Storage conditions	4° C, store in dark, DO NOT FREEZE!
RRID	AB_11044500

Applications	Tested Dilution	Publications
Flow Cytometry (Flow)	5 µL (0.5 µg)/test	1 Publication

## Product Specific Information

Description: This 31B monoclonal antibody reacts with human CD208, which is also known as dendritic cell lysosome-associated membrane glycoprotein (DC-LAMP). CD208 is expressed almost exclusively by mature dendritic cells. Expression of this molecule can be induced in monocytes by stimulation with GM-CSF and IL-4. Moreover, CD208 can be upregulated in CD34+-derived dendritic cells by GM-CSF, SCF, and TNFα. CD208 is also expressed in dendritic cells of non-lymphoid tissues such as skin. While CD208 can be detected on the cell surface, this protein is mainly localized within lysosomes. CD208 plays a key role in the processing and presentation of antigen during the immune response.

The 31B antibody only recognizes intracellular CD208, not the cell surface-expressed protein.

Applications Reported: This 31B antibody has been reported for use in intracellular staining followed by flow cytometric analysis.

Applications Tested: This 31B antibody has been pre-titrated and tested by flow cytometric analysis of in vitro differentiated mature dendritic cells. This can be used at 5 µL (0.5 µg) per test. A test is defined as the amount (µg) of antibody that will stain a cell sample in a final volume of 100 µL. Cell number should be determined empirically but can range from 10^5 to 10^8 cells /test.

Excitation: 633-647 nm; Emission: 660 nm; Laser: Red Laser.

Filtration: 0.2 µm post-manufacturing filtered.

Product Images For CD208 (DC-LAMP) Monoclonal Antibody (31B), APC, eBioscience™

**CD208 (DC-LAMP) Antibody (17-2089-41) in Flow**  
In vitro differentiated human mature dendritic cells (7-day) were fixed and permeabilized and then stained with Mouse IgG2a K Isotype Control APC (Product # 17-4724-81) (blue histogram) or Anti-Human CD208 (DC-LAMP) APC (purple histogram). Total viable cells were used for analysis.

For Research Use Only. Not for use in diagnostic procedures. Not for resale without express authorization. Products are warranted to operate or perform substantially in conformance with published Product specifications in effect at the time of sale, as set forth in the Production documentation, specifications and/or accompanying package inserts ("Documentation"). No claim of suitability for use in applications regulated by FDA is made. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated in the Documentation, this warranty is limited to one year from date of shipment when the Product is subjected to normal, proper and intended usage. This warranty does not extend to anyone other than the Buyer. Any model or sample furnished to Buyer is merely illustrative of the general type and quality of goods and does not represent that any Product will conform to such model or sample. NO OTHER WARRANTIES, EXPRESS OR IMPLIED, ARE GRANTED INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE, OR NON INFRINGEMENT. BUYER'S EXCLUSIVE REMEDY FOR NON-CONFORMING PRODUCTS DURING THE WARRANTY PERIOD IS LIMITED TO REPAIR, REPLACEMENT OF OR REFUND FOR THE NON-CONFORMING PRODUCT(S) AT SELLER'S SOLE OPTION. THERE IS NO OBLIGATION TO REPAIR, REPLACE OR REFUND FOR PRODUCTS AS THE RESULT OF (I) ACCIDENT, DISASTER OR EVENT OF FORCE MAJEURE, (II) MISUSE, FAULT OR NEGLIGENCE OF OR BY BUYER, (III) USE OF THE PRODUCTS IN A MANNER FOR WHICH THEY WERE NOT DESIGNED, OR (IV) IMPROPER STORAGE AND HANDLING OF THE PRODUCTS. Unless otherwise expressly stated on the Product or in the documentation accompanying the Product, the Product is intended for research only and is not to be used for any other purpose, including without limitation, unauthorized commercial uses, in vitro diagnostic uses, ex vivo or in vivo therapeutic uses, or any type of consumption by or application to human or animals.
