**Titin Antibody (PA5-52379)**

Relative expression in different tissues in IHC: Detection of differential expression levels of Titin demonstrates antibody specificity. Immunohistochemical analysis of Titin using anti-Titin Polyclonal Antibody (Product # PA5-52379), shows significant staining of Titin in human skeletal muscle and shows minimal or weak staining in human liver tissues. The relative expression levels of Titin within each tissue is shown using RNA-Seq. Relative expression validation info.
