

E-cadherin Monoclonal Antibody (Sec21)

Catalog Number MA1-06304 Product data sheet

Details	
Size	100 μL
Host/Isotope	Mouse / IgG1
Class	Monoclonal
Туре	Antibody
Clone	Sec21
Immunogen	Synthetic peptide corresponding to residues P(30) G F D A E S Y T F T V P R(43) of mature human E-cadherin.
Conjugate	Unconjugated
Form	Liquid
Concentration	1 mg/mL
Storage Conditions	4° C

Human
Dilution *
1:100-1:1,000

^{*} Suggested working dilutions are given as a guide only. It is recommended that the user titrate the product for use in their own experiment using appropriate negative and positive controls.

Product specific information

MA1-06304 detects E-cadherin in human samples. MA1-06304 has sucessfully been used in Western blotting. By Western blotting, it detects a ~120 kDa protein representing E-cadherin. The MA1-06304 immunogen is a synthetic peptide corresponding to residues P(30) G F D A E S Y T F T V P R (43) of mature human E-cadherin. Store at 4°C or in small aliquots at -20°C.

Background/Target Information

E-Cadherin (epithelial cadherin) is a classical cadherin from the cadherin (alcium dependent adhesion protein) superfamily. The encoded protein is a calcium dependent cell-cell adhesion glycoprotein comprised of five extracellular cadherin repeats, a transmembrane region and a highly conserved cytoplasmic tail. Mutations in this gene are correlated with gastric, breast, colorectal, thyroid and ovarian cancer. Loss of function is thought to contribute to progression in cancer by increasing proliferation, invasion, and/or metastasis. The ectodomain of this protein mediates bacterial adhesion to mammalian cells and the cytoplasmic domain is required for internalization. Identified transcript variants arise from mutation at consensus splice sites. Ecadherin plays a central role in the growth and development of cells by controlling tissue architecture, and maintenance of tissue integrity. In humans, Ecadherin is encoded by the CDH1 gene present on chromosome 16. Studies have demonstrated that reduction and/or loss of E-cadherin expression in carcinomas correlates positively with the potential of these tumors for invasion and metastasis.

Products are warranted to operate or perform substantially in conformance with published Product specifications in effect at the time of sale, as set forth in the Production documentation, specifications and/or accompanying package inserts ("Documentation"). No claim of suitability for use in applications regulated by FDA is made. The varranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated in the Documentation, this warranty is limited to one year from date of shipment when the Product is subjected to normal, proper and intended usage. This warranty does not extend to anyone other than the Buyer. Any model or sample unsisted to Buyer is merely illustrative of the general type and quality of goods and does not represent that any Product will conform to such model or sample.

NO OTHER WARRANTIES, EXPRESS OR IMPLED, ARE GRANTED INCLUDING WITHOUT LIMITATION, IMPLED WARRANTIES OF MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE, OR NON INFRINGEMENT, BUYER'S EXCLUSINE REALED FOR ROCKETOR POR REFUND FOR PORTOR PORT OF REFUND FOR PORTOR PORTO

Product Images For E-cadherin Monoclonal Antibody (Sec21)

E-cadherin Antibody (MA1-06304) in WB

Western blot analysis of CD324/E Cadherin using CD324/E Cadherin monoclonal antibody (Product # MA1-06304). Moderate reactivity with the 120 kDa full length protein (left lane) and strong reactivity with the 80 kDa extracellular part (right lane) of E-Cadherin

For Research Use Only. Not for use in diagnostic procedures. Not for resale without express authorization
