## **EOMES Polyclonal Antibody**

Catalog Number PA5-12261 Product data sheet

Details	
Size	400 μL
Host/Isotope	Rabbit / IgG
Class	Polyclonal
Туре	Antibody
Immunogen	KLH conjugated synthetic peptide between 26-57 amino acids from the N-terminal region of human EOMES (TBR2)
Conjugate	Unconjugated
Form	Liquid
Concentration	Lot-specific
Storage Conditions	Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C

Tested Applications	Dilution *
Western Blot (WB)	1:1,000

<sup>\*</sup> Suggested working dilutions are given as a guide only. It is recommended that the user titrate the product for use in their own experiment using appropriate negative and positive controls.

## Background/Target Information

TBR2 is a member of a conserved protein family that shares a common DNA-binding domain, the T-box. T-box genes encode transcription factors involved in the regulation of developmental processes. A similiar protein disrupted in mice is shown to be essential during trophoblast development and gastrulation. TBR2 plays a role in brain development and is required for the specification and the proliferation of the intermediate progenitor cells and their progeny in the cerebral cortex.
