#### Product specific information

MA5-15812 targets CRTC3 in indirect ELISA, IF, IHC, and WB applications and shows reactivity with Human and Non-human primate samples. The MA5-15812 immunogen is purified recombinant fragment of human CRTC3 expressed in E. Coli. MA5-15812 detects CRTC3 which has a predicted molecular weight of approximately 68kDa.

avoiding freeze/thaw cycles.

#### Background/Target Information

The protein encoded by this gene has similarity to a yeast protein. It seems to be part of a peripheral membrane protein complex localized on cis/medial Golgi cisternae where it may participate in tethering intra-Golgi transport vesicles.
